Slowlidays

An immersion experience in nature
Try the **Slow adventure!**

THE 3 BASIS RULES

Choose a destination that suits you

The goal is above all to enjoy yourself, your vacation destination is a place that you really want to discover, that really makes sense to you.

Forget about your mobile phone

Holidays are the right time to disconnect. Go for digital detox ! How about trying to forget about your phone by checking it only once a day ? You will then find the time to fully enjoy your moment and create your own memory.

Take time to discover

What if you went from being a simple spectator to an active actor ? If you have chosen a small village, you can for example meet the local people around a drink, have a chat with the local beekeeper or taste the local speciality. Take pleasure in experiencing places rather than just walking through them.

Slow Life...

The **slow food** movement was born in the 1980's.

Carlo Petrini and his friends are the origin of the philosophy. These **lovers of good things in life** expressed their attachment to good products as well as to **time** that should be given to a meal.

This way of perceiving daily life has been taken up in many forms, such as slow art or slow travel.

When camping is about
freedom and relaxation

Participate in the preservation of the **native forest!**

Since **Seasonova's** creation, we have always been committed to **taking action for the planet**. This is why, in 2022, we are partnering with **Groupe SLB** and **Stéphane Ledentu** in the **Ecologic Program**. This program consists in acquiring land leached by intensive agriculture and **replanting trees** that will replenish the soil. **As an expert in forest creation for 30 years** in France, Brazil, Romania and Senegal, Stéphane Ledentu has values in common with others.

In 2022 alone, we were able to make our contribution by **planting 1,935 trees, making it possible to preserve 1.2 hectares of native forest** in the State of Paraná in Brazil. We are thus contributing to global carbon neutrality, through the voluntary fixation of an estimated 929 tons of CO2.

The natural regeneration of native forests is a subject that is particularly close to our hearts. By staying at Seasonova, **you are helping to preserve the planet.**

EXPERIENCES TO LIVE

MEET the neighbours

You will surely fall in love with our beautiful goats !

The small farm

You and your children will have the opportunity to **participate in the life of the mini farm** by taking part in the feeding of the animals. Let your children create their own new memories that they can tell their classmates about.

AWAKEN your senses

You and your family can enjoy your our holidays designed around the 5 senses.

The 5 senses

- **The sight** : a natural setting
- **The hearing** : listen to the birds singing, the sound of the wind...
- **the touch, the taste and the smell** : a display of aromatic containers are in the campsite to practice picking and (re)awaken the taste buds
