DID YOU
KNOW?

Compost turns our organic waste into fertile soil in a few weeks. It feeds our permaculture bins and allows you to grow your vegetables and aromatic herbs.

THE GUIDE TO

THE ECO-VACATIONER

Let's act together for the environment!

I sort my waste in the bins provided.
All plastic, metal or cardboard packaging.
I use the composter for bio-waste.

I preserve nature by prioritizing responsible transportation.

For a more responsible stay, I plan to turn off the lights and heating when I leave the mobile home and set the temperature below 19 degrees Celsius.

BEFORE YOU LEAVE

In order to best prepare for the arrival of the next vacationer, we kindly ask you to take a few moments to:

- Take one last look at the cupboards and drawers to make sure you haven't forgotten anything.
- Empty the refrigerator and take away the remaining food.
- Carry out the end-of-stay cleaning and place your waste in the containers provided for this purpose.
