KNOW?

Compost turns our organic waste into fertile soil in a few weeks. It feeds our permaculture bins and allows you to grow your vegetables and aromatic herbs.

THE GUIDE TO

THE ECO-VACATIONER

Let's act together for the environment!

I sort my waste in the bins provided.
All plastic, metal, and cardboard packaging.
I use the composter for organic waste.

I preserve nature by prioritizing responsible transportation.

For a more responsible stay, I turn off the light and heating when I leave my lodging and set the temperature below 19 degrees Celsius.
